

Lee Dennie, BMus

Music Teacher – 3 and 4 year old classes

I have been teaching the music program at WECP for almost 15 years, where we explore rhythm, movement and percussion instruments. It is especially a joy for me to teach the preschoolers how to explore new instruments they have never seen before (finger harps, rain sticks, zube tubes, poppers!) and how sound is made through each one. I believe no two people are alike in how they hear music. As a result, my goal is to give my students the freedom to play what they feel so their own creativity develops. “A little bit of ‘Kate’ or ‘Zach’ in this, not a little bit of Lee” is what the children will often hear me say in my classes.

I started taking music lessons as a preschooler myself at the age of 3 and took on my first piano student at age 12. I received a Bachelor of Music from the University of Alberta and I have taught piano in west Edmonton since 1989.
